

International Patent Classification. Section G (Physics). Classes and Subclasses Was Published

17.12.2007

The Estonian Patent Office started to publish the Estonian version of the WIPO publication International Patent Classification (IPC). Eighth Edition (2006).

Besides the published Methodological Guidelines, Section A and Section H, also Section G is now available.

The fresh publication International Patent Classification. Section G (Physics). Classes and Subclasses is available in the Estonian Patent Library since 18 December.
