

Preparation and filing of a patent application

Patent application

A patent application is [a set of documents](#) prepared according to certain rules that shall be filed with the Patent Office by [the author of the invention](#) or [the person who has the right to apply for a patent](#).

The formal and substantive requirements for the documents contained in the patent application and the procedure for filing patent applications are established by the Patents Act ([Patents Act § 19](#) and [§ 20](#)) and the regulation by the Minister of Economic Affairs and Communications The Formal and Substantive Requirements for the Documents Contained in the Patent Application and the Procedure for Filing Patent Applications ([in the Estonian language](#)).
