- [e-services](#)

Applications for legal protection of industrial property can be filed on-line via the [portal of electronic filing](#). The portal is in Estonian.

The Estonian ID-card is required for the entry into the portal. A patent application can only be filed with the Estonian Patent Office after it has been digitally signed by the applicant(s) or the patent attorney. Upon request the Estonian Patent Office issues a notification about the acceptance of the patent application. The notification can be saved or printed out. It is possible to view your earlier filed applications via the portal.
