

"Protection of an EU trade mark. Instructions" (in Estonian) now also available as e-book in Estonian

19.11.2018

In cooperation between the Estonian Patent Office and the European Union Intellectual Property Office, a book "Protection of an EU trade mark. Instructions" has also been published as e-book, in [e-pub file format](#).

These instructions concern the European Union trade mark system, which enables to only file a single application in order to get protection for a trade mark throughout the whole territory of European Union. The edition has a largely practical orientation and is primarily intended to entrepreneurs who wish to protect their trademark at European Union level, plan to file an EU trade mark application or are already owners of an EU trademark.

[E-books of the Estonian Patent Office](#) can be downloaded for free.
